**Re: Lambton Children's Safety Village**

As Chairperson of the Canadian Society of Safety Engineering (CSSE) Bluewater Chapter and on behalf of our executive committee and our Chapter, it is our pleasure to have been given the opportunity to write a letter of support for the Lambton Children's Safety Village.

The Lambton Children's Safety Village will be a great benefit to the Lambton County community. Our shared goal is to teach our children the importance of safety prevention and risk awareness. Safety prevention and risk awareness pertains to each person's daily life: vehicle safety, interaction with others and intervention strategies when confronted with situations.

We strongly support the participation of fire, police and other community safety groups who also foster the development of these skills in our children. These skills will improve the safety of our community today, tomorrow and in the future.

Since these are the goals that the CSSE shares with the Lambton Children's Safety Village, we are very proud to give our full support to the Lambton Children's Safety Village. Please do not hesitate to call me at (519) 490-4087 or email me at [safety@dicocco.ca](mailto:safety@dicocco.ca).

Sincerely,

Marco Vozza

CSSE Bluewater Chapter Chair
