To Whom It May Concern,

I am writing this letter in support of the fundraising efforts on behalf of the Lambton Children's Safety Village.

This safety village will be a great benefit to our community as it will provide a fun place for the children of Lambton County to develop a positive attitude toward safety. Children will learn important lessons that will protect their safety and well-being in both urban and rural environments. It is of utmost importance to reduce child-related injuries by creating a setting where young people will learn safety awareness and will be motivated to learn how to make smart choices in their daily lives.

The Lambton County Library system is looking forward to partnering with the Township of St. Clair to relocate the Mooretown Library into the interpretative building of the safety village. This move will give the library an opportunity to work together with the Children's Learning Centre to become an educational and informational asset for young people and their families.

Lambton County Library is pleased to support this initiative and wish your committee success in the achievement of this project. We look forward to future collaboration with the Lambton Children's Safety Village.

Sincerely,

Carol Gardiner
Branch Services Manager
