**RE: Lambton Children's Safety Village**

Dear Ms Buntrock,

Lambton College is proud to provide a letter of support for the Lambton Children's Safety Village. This venture promotes the continued safety of children in the community and an opportunity for Lambton College to provide service learning for its students.

Students in Public Safety, Community Service and the Apprenticeship & Trades sectors will be personally and professionally enriched by this involvement. As a component of their curriculum, these students will gain a sense of civic responsibility through active participation with the Lambton Children's Safety Village.

For over 45 year Lambton College has provided education and training to students from across Ontario, Canada and internationally, contributing to the social well-being of its community, and serving over 3,500 full-time and 6,000 part-time students and over 600 apprentices annually.

Lambton College is pleased to support this initiative and looks forward to future collaboration.

Sincerely,

Judith Morris  
President and CEO  
Lambton College
